

AURORA

# AURORA

The colors of your skin's radiance

AURORA is a medical cosmetic brand inspired by one of nature's most mysterious and beautiful lights – the aurora. Just as the aurora illuminates the darkness and heralds a new beginning, AURORA delivers regeneration and restoration to tired skin, bringing forth a luminous transformation

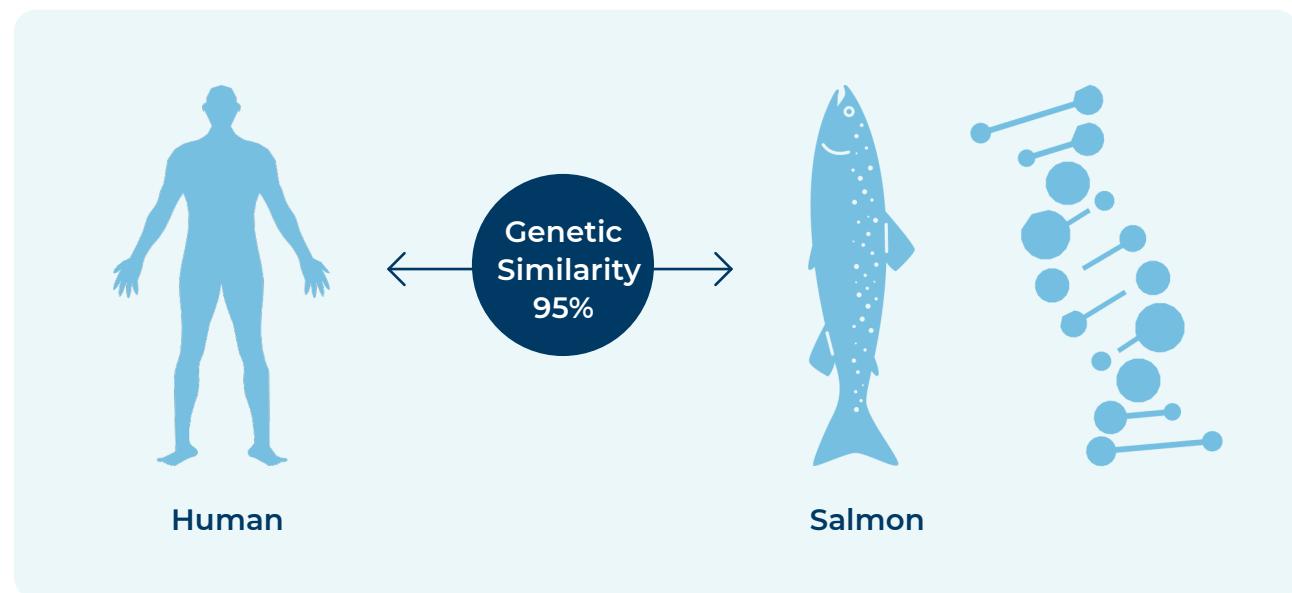

# AURORA

Our mission is to awaken the skin's innate power, creating a complexion that is healthy, smooth, and radiant. Beyond skincare, AURORA aspires to add more beautiful colors to the shining moments of our customers' lives, offering not just treatment, but an experience that makes every day extraordinary.

# AURORA

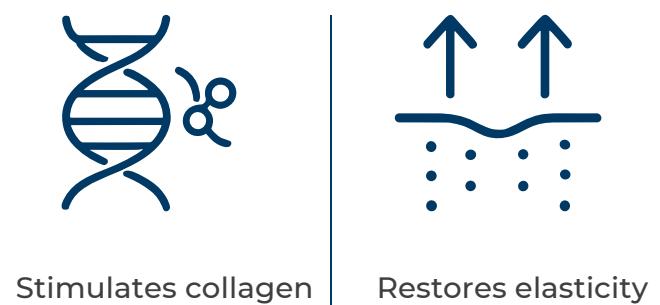

## Fill your skin from the inside out with Polynucleotides(PN)

Polynucleotides (PN) are long-chain DNA fragments refined from PDRN, a substance derived from salmon and known for its excellent biocompatibility with the human body. PN treatments stimulate the skin's natural regenerative capacity, enhance the internal skin environment, and support the restoration of healthy skin structure.

## Mechanism

Polynucleotides (PN) activate adenosine A2A receptors in fibroblasts, stimulating collagen production and helping to restore skin volume and elasticity.

- Enhances skin hydration

- Protects against environmental damage

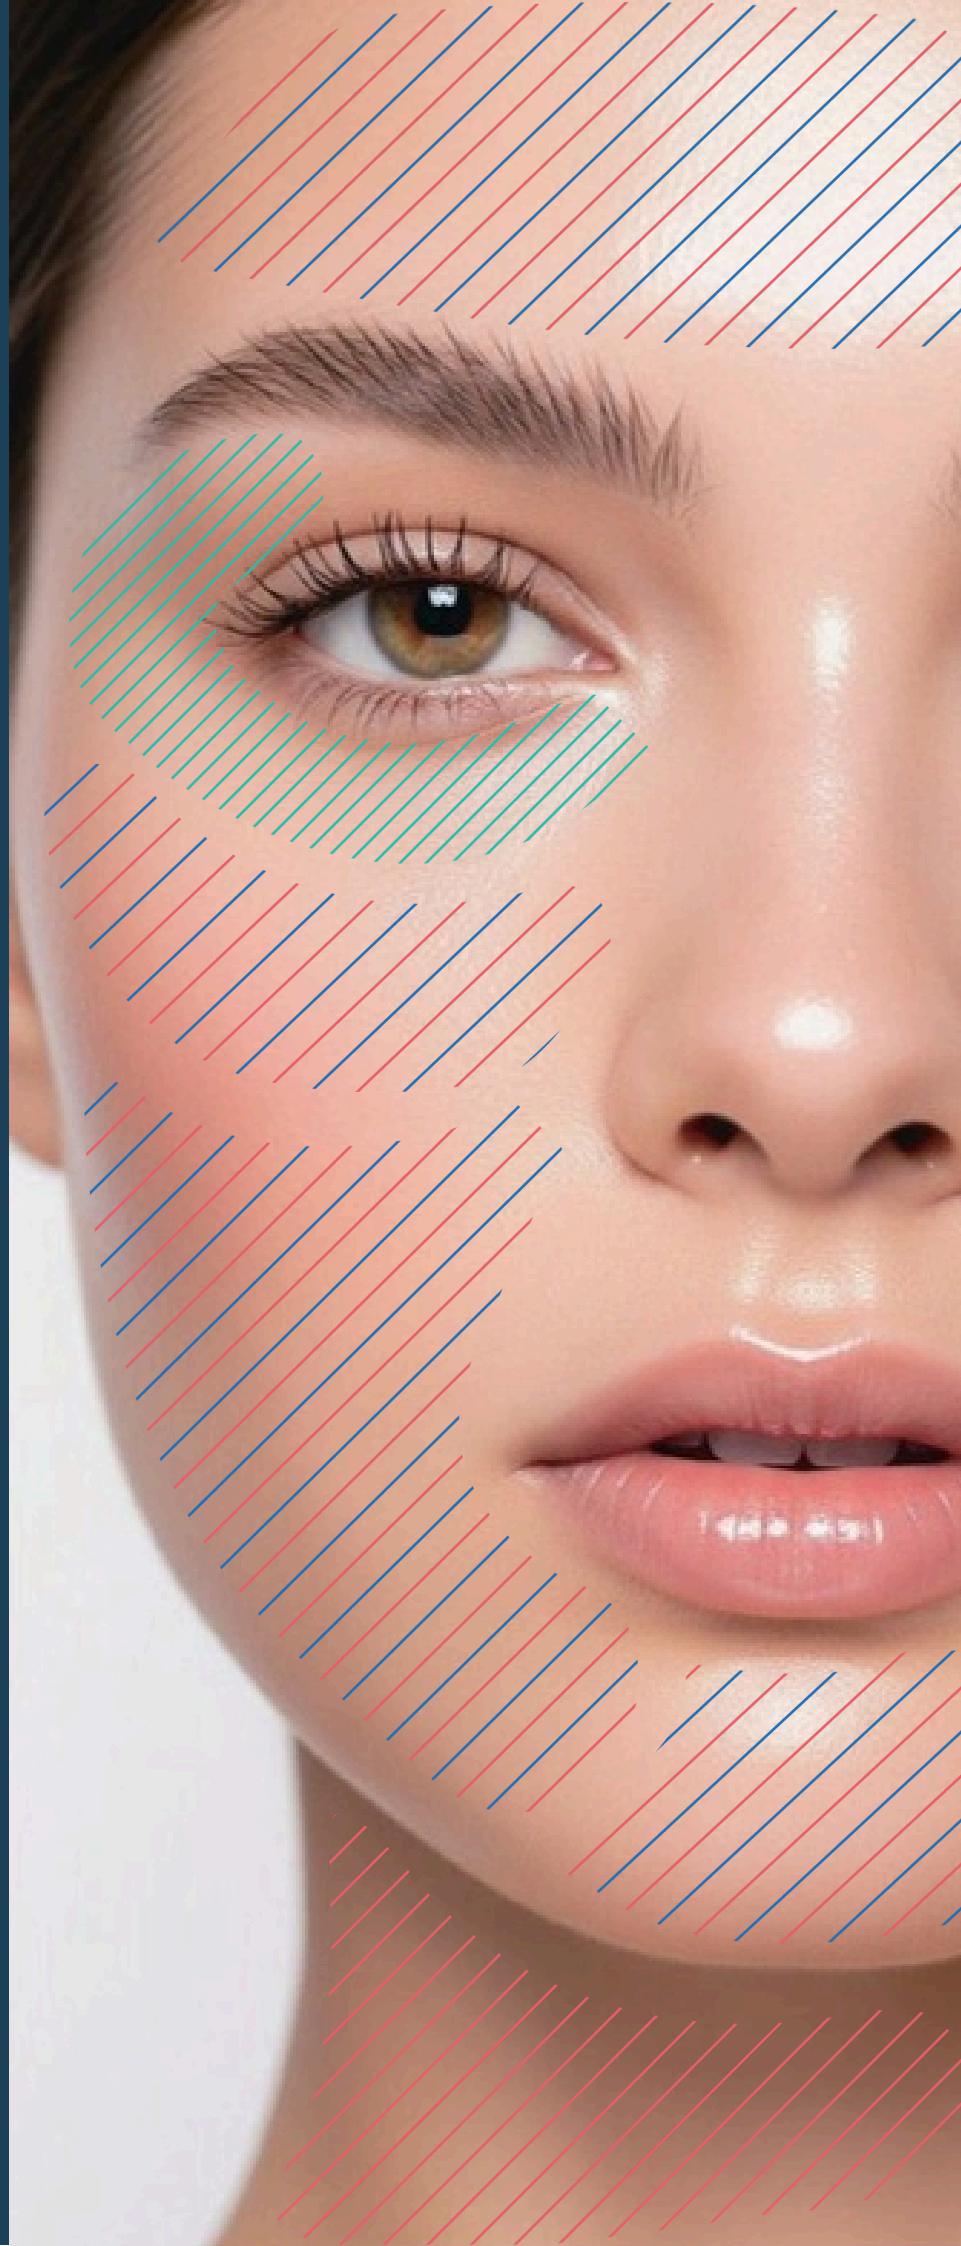

- Calms inflammation

- Reduces hyperpigmentation

- Evens skin tone

- Boosts collagen production

How AURORA PN can help your skin

### PN EYES UNDER EYE

4mg/ml, 1.1 ml  
(4.4mg/syr) ● ○ ○ ○

Specially formulated for the delicate under-eye area, this model targets dark circles, fine lines, and thinning skin. It provides gentle yet effective regeneration, bringing brightness and vitality back to tired eyes with natural-looking results.

### PN Booster FULL-FACE

5mg/ml, 1.1 ml  
(5.5mg/syr) ● ● ○ ○ ○

Designed to revitalize the entire face, this model helps smooth skin texture, restore hydration, and enhance overall skin health. It softens fine lines and improves skin tone, leaving you with a naturally radiant and refreshed look.

### PN Pro HIGH DOSE

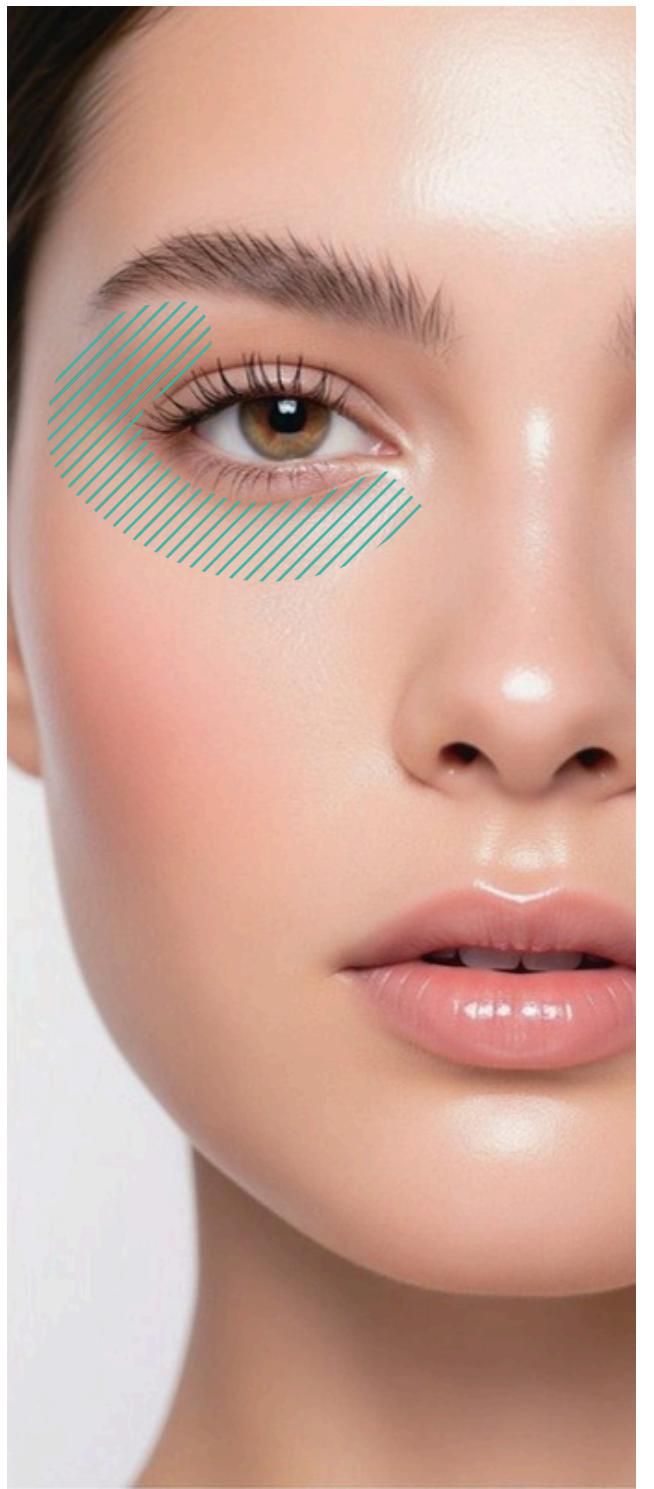

20mg/ml, 2.5 ml  
(50mg/syr) ● ● ● ● ○

With a higher concentration of PN, this model delivers more intensive rejuvenation. It is ideal for improving skin elasticity, reducing deeper wrinkles, and repairing damaged skin structure. Perfect for those seeking stronger, more visible results.

## PN EYES

### Under Eye Revitalizer

#### VOLUME

1.1 ml x 1syr / box

#### INGREDIENTS

Polynucleotide 4mg/ml  
(4.4mg/syr)  
Niacinamide  
Botulinum polypeptide

#### INDICATIONS

Eye zone

#### Formulated to support a brighter and firmer eye contour.

Specially formulated for the delicate under-eye area, this model addresses concerns such as dark circles, fine lines, and thinning skin. It provides gentle yet effective regeneration, helping restore brightness and vitality with natural-looking results.

Enriched with **Niacinamide**, a multi-functional ingredient that supports improvement in skin tone, texture, and barrier function, and **Botulinum polypeptide**, a non-invasive anti-aging component that helps to soften fine lines and support firmness, this formula is designed to promote a brighter and firmer eye contour.

## PN Booster

### Full-Face Skin Booster

#### VOLUME

1.1 ml x 1syr / box

#### INGREDIENTS

Polynucleotide 5mg/ml  
(5.5mg/syr)  
Niacinamide  
Botulinum polypeptide  
Succinic acid

#### INDICATIONS

Full face, Hand, Neck, etc.

#### Entire face General skin rejuvenation

Designed to revitalize the entire face, this model helps smooth skin texture, restore hydration, and improve overall tone. It provides balanced regeneration across wide areas of the skin, supporting a naturally healthier and more radiant complexion.

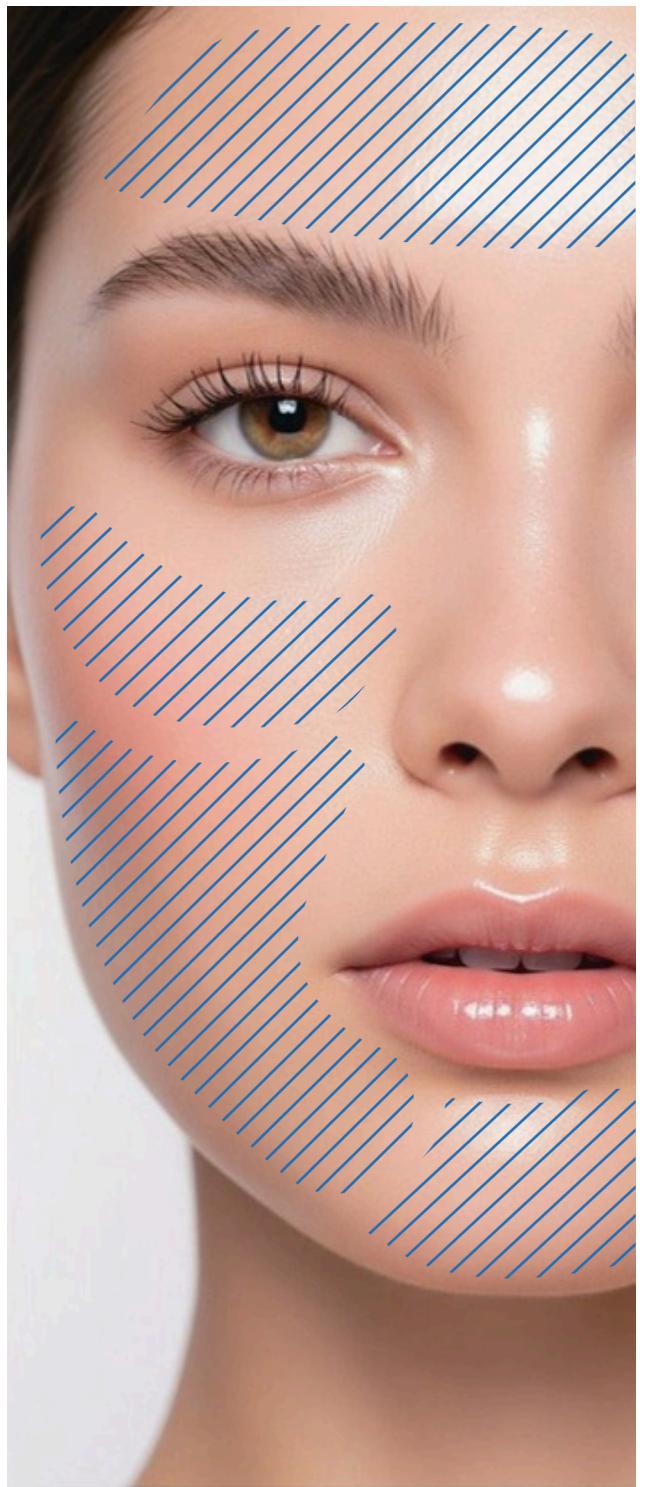

Formulated with **Niacinamide**, which enhances skin tone, texture, and barrier function, and **Botulinum-like Peptide**, which helps reduce fine lines and support firmness, this booster offers comprehensive care for brighter, smoother, and firmer-looking skin.

# AURORA

## PN Pro

### Intensive Skin Booster

#### VOLUME

2.5 ml x 1syr / box

#### INGREDIENTS

Polynucleotide 20mg/ml  
(50mg/syr)

#### INDICATIONS

Full face, Hand

#### Addresses advanced aging

With a higher concentration of PN, this model delivers more intensive rejuvenation. It is ideal for improving skin elasticity, reducing deeper wrinkles, and repairing damaged skin structure. Perfect for those seeking stronger, more visible results.
